I change my computer. What happens with the installed UV software? - Software

What happens if a computer is discarded or donated to third parties?

It will depend on the type of recipient:
• Other Department of the University: Any software with a paid license or limited campus license must be uninstalled since they are posted to the Department / Center of origin.
• Donations to other centers such as schools, institutes or NGOs: You must uninstall all software from the computer and leave it with the software of origin or without software, including operating system.
• Disposal: If possible, you must uninstall all software from the computer and leave it with the software of origin or without software, including operating system. In case it is not possible, the hard disk will be disabled with magnetic and / or mechanical means so that the information contained in it can not be accessible.
