(EN) Recover resources or activities deleted by mistake.

Aula Virtual -

Sometimes a resource or activity is deleted by mistake.

When a resource or activity is deleted, a new option appears in the "ADMINISTRATION" block, which is the "recycle bin".

- The icon appears when we update the page.
- We have 7 days to recover the resources or activities eliminated.
- After 7 days the system removes it permanently and can not be recovered.

To recover the deleted items you have to enter the "recycle bin".

On the page that opens, click on the "Restaurar".
