In those licenses that require a payment (by the department, service or center) or those with a limited Campus license (under the general budget of the University), it is the person of the Universitat de València responsible for the accounting codes where the imputation of the amount of the software licenses that are assigned to a user will be made. You must authorize the charge of the amounts with your signature in the software application.

It can be Dean or Dean, Director or Director of School, Director or Director of Service, Director or Director of Department, Director or Director of research project.

The person in charge or responsible is the person who must sign as Director or Director.

NOTE: Keep in mind that although the amount to be compensated is € 0 (case of limited Campus licenses) the requests can not be signed by the same user, except that the user is an authorized charge as just described.
