(EN) Enrollment of subjects - Degree Enrollment

Registration of subjects

The enrollment of subjects is done by course, starting with the lower course in which you have compulsory subjects that have not been passed. Therefore, you must register for all the compulsory subjects of this course in order to continue with the enrollment of the subjects of higher courses.

The limit of ECTS credits established, in no case may exceed the maximum number of credits, 72 credits maximum, except double degree programs and exceptions.

There are several types of registration. The center will offer you one or more in your registration.

If you need more detailed information, you can consult the section (ES) MODALIDADES DE MATRÍCULA: Ayuda.

Click on the information icon to obtain a detailed description of the modality.

Sections of the registration screen

Compulsory subjects pending enrollment in the course.

You also have optional subjects, if the curriculum has this modality.

In this tab you have the elective subjects defined in the curriculum of this modality.

You also see the electives passed.

You can see the compulsory subjects already passed.
Enroll in the first place of the compulsory subjects

Mark “Select all” to register for all compulsory subjects.

Click on the MATRICULAR button

Follow the instructions that will appear on the screen according to the enrollment method you have chosen.

If you have selected the license plate:

**BY GROUP**
