(EN) Application of academic acts. To do's before publishing qualifications.

Moodle Calculates the total note of a course taking into account the items that the teachers specify in "Configurate qualifications".

Which occurs if the teacher wants to that the student feature how 'Not presented' in the course before exporting the notes to the application of acts?

Teacher has to edit manually the notes of the students and leave empty the corresponding box to 'Total of the course'.

How?

Go in in the 'Qualificador' and edit the 'Total of the course'

Leave in blank the field 'Qualificació' of the student that want to that I feature it acts how not presented (NP)
